Brazil hosts the announcement of the Global Council on Inequality, AIDS and Pandemics

UNAids

Social and economic inequalities within countries and between them are exacerbating and prolonging pandemics and amplifying their impact amongst the poorest and the most vulnerable. The work of the Global Council will harness essential evidence for policymakers and elevate political attention to the need for action to end inequalities that fuel AIDS and other pandemics.

Global progress in tackling maternal and newborn deaths stalls since 2015

World Health Organization

A recent UN report shows that progress in maternal and newborn death has stalled since 2015. Part of the reason is a lack of investment and focus on socio-economic determinants and groups in vulnerable populations
